INTRODUCTION

I am a 25-year-old Malaysian that graduated from Universiti Tunku Abdul Rahman (UTAR) after finishing my degree – **Bachelor of Science (Hons) Game Development** with a graduating **CGPA** of **2.90**.

I am computer literate, and a fast learner. I can work under stressful situation, and I love challenges in work as it pushes me to become better. I am very eager and willing to learn new things. I am also able to adapt to a new working environment quickly.

My native language is Mandarin Chinese, but I can also speak fluent English, and communicate well in Bahasa Malaysia. I can also understand Cantonese and Hokkien dialects as well.

EDUCATION

Bachelor of Science (Hons) Game Development @ Universiti Tunku Abdul Rahman (UTAR)

MAY 2015 – MAY 2018

I finished my studies with a final CGPA of 2.90. My top subjects are Web Application Development, Computer Graphics using OpenGL and Mobile Game Developments.

Senior Middle Three (Science Stream) @ Chong Hwa Independent High School Kuala Lumpur (CHKL)

JANUARY 2009 – DECEMBER 2014

Graduated my six-years secondary education with 2As in UEC, and 3As in SPM with Bahasa Malaysia and Sejarah scoring B+ and B respectively.

WORKING EXPERIENCE

IT Admin cum Project Executive | Han Culture Centre (M) Sdn Bhd

JULY 2018 – MAY 2021

I was responsible for the design and development of my company's website.

Besides that, I was also responsible to provide level 1 and level 2 technical support by handling and resolving day-to-day computer hardware and software related issues that the company staffs encountered.

At the meantime, I also handle Chinese Proficiency Test (HSK) administrative works and execution.

Intern as Android Developer | Globaltium Sdn Bhd
JUNE 2017 – AUGUST 2017

My responsibility is to develop native Android application using Android Studio that the client asked. I must coordinate and cooperate with the designers and the backend developers. During the internship, I have involved in the development of two Android application and exposed to the Android application development environment.

IT Assistant | Chong Hwa Independent High School (CHKL)
JANUARY 2015 – MAY 2015

My responsibility is to provide helpdesk and level 1 technical support to the teachers with computer hardware and software related issues such as troubleshooting to identify the issue with their computer and provide a solution for them.
